Swiss Premium Beds

Swissflex bed systems: swiss-made in Flüh (CH)

Swissflex has been manufacturing premium-quality, intelligent bed systems for over 60 years. Our products combine Swiss artisanship, technical expertise and a knack for innovation to create an unparalleled system designed to provide individual solutions for highly demanding users: functional, comfortable and exquisitely designed.

What does Swissflex stand for?

While Swissflex' main focus for many years was slatted frames (duckboards) for beds, in recent years we have further developed our expertise and product range in mattresses and bed frames, making us the leading international Swiss brand for comprehensive bed systems in the high end of the market. Various patents and innovations ensure unique lying comfort – the main requirement for healthy and restorative sleep. Our production facility in Flüh, Switzerland, creates local jobs and ensures the highest-quality swiss-made products.

Swissflex Milestones

- 1949** Company established

Swissflex® CLICK

a double bed in 10 minutes

Swissflex makes it possible. Beautiful design does not have to be expensive or complicated. Usually, a bed frame is first assembled on legs where slatted bases and mattresses are then inserted. Swissflex has turned this

traditional principle upside down by placing the slats on the feet and clicking the parts for the bed frame on the sides of the slats – including the headboard. You can't even see it? Exactly!

Swissflex® CLICK, height 26cm, headboard Paris 128cm, fabric upholstery Secret Midnight

Swissflex® CLICK, height 26cm, headboard Wood 3 with Pillows Deco 105cm, Wood look Gladstone Oak Grey

Product features

- Modular bed frame concept with bed sides and a «click on» headboard.
- Optically no difference to a conventional bed frame – Wood look or fine fabric upholstery
- Applicable to the complete range of Swissflex slat bases
- Can also be ordered as an upgrade set
- Various bed frame profiles and headboards for your individual design
- Easy assembly – a double bed is ready in less than 10 minutes
